The Mahavakyas are the four "Great Sayings" of the Upanishads, the foundational texts of Vedanta. Each of the Mahavakyas is associated with one of the four Vedas and in Vedantic mysticism is said to condense the essence of that entire Veda in one statement. All four statements indicate the ultimate unity of the individual Self (Atman) with God (Brahman; Universal Self). Kanchi Paramacharya says in "Hindu Dharma": "It is to attain this highest of states in which the individual self dissolves inseparably in Brahman that a man becomes a sannyasin after forsaking the very karma that gives him inward maturity. When he is initiated into sannyasa he is taught four mantras, the four [principal] mahavakyas"

## NAMASTE ! Namaste, I salute the divine in you! Salut Divinul din tine!

### *Namaste and the Holographic Universe*

*In India, people meet and part  
with palms joined, saying*

*"Namaste"*

*("I honor the Divine within You")*

*In context "Namaste" can be taken to mean any of these:*

- The Spirit in me meets the same Spirit in you.*
- I greet that place where you and I are one.*
- My Divine Light salutes the Divine Light of Life in you.*
- I recognize that within each of us is a place where peace dwells,  
and when we are in that place, we are One.*
- My divine energy salutes your divine energy.*
- The life in me sees and honors the life in you.*
- The light within me sees and honors the light within you.*

*In other words, this greeting pays honor to the sacredness and interconnection of all, as well as to the source of that interconnection and recognizes that we-human beings, in our diversity and multiplicity, are in our essence the same divine spark, a Holographic manifestation of the Awakened Universe.*

**Am scris acest articol dorind sa fie constientizat faptul ca programarea(setul de conceptii, credinte, modele despre realitate si de teorii, implantate in cursul educatiei sau conditionarii) se substituie realitatii si comanda perceptiile si actiunile fiintelor umane(inclusiv in planul creatiei literare). Lipsa unor creatii de geniu nu inseamna ca aici nu ar fi prezente fiinte umane inzestrate, ci faptul ca ele se complac sa ramana prizoniere ale conditionarii, ale locului comun, ale stereotipiilor. Concursurile si premiile nu sunt de ajuns pt a depasi un impas legat de prizonieratul in conceptii inoculate pe banda in scoala si societate. Salut crearea acestui loc de intalnire a creatorilor literari, pt. care multumesc lui Gelu Vlasin, si incerc sa aduc un nou sistem de referinta, un nou punct de imobil, de care sa ne putem sprijini pt a misca lumea prin creatia din Romania.**

De pilda analiza semnificatiei salutului antic NAMASTE ! indica cunoasterea si practicarea principiului holografic de catre civilizatiile care ne-au precedat pe Terra Divinul nu este undeva in afara, in Cer, ci este omniprezent. Numit constiinta cosmica, constiinta colectiva planetara ori galactica, el vede, aude si intelege prin ochii, urechile si mintea fiecaruia dintre noi, ca si cum am fi terminale ale marii minti universale.

In cuvantul lui Iisus: "Imparatia lui Dumnezeu este inlauntrul vostru"(Luca 17.20-21); Iisus spunea:"Imparatia lui Dumnezeu nu vine in asa fel ca sa izbeasca privirile. Nu se poate zice: Uite-o aici! sau: "Uite-o acolo!" Caci iata ca Imparatia lui Dumnezeu este inlauntrul vostru"(Luca 17.20-21; Rom.144.17; Vers.23)]

Acelasi adevar este afirmat si de Lao Zi: "Fara sa treci pragul usii, poti cunoaste intreg universul; Fara sa privesti pe fereastra, poti vedea Calea Cerului "(Lao Tzu 47)

"Dumnezeu este un cerc, al carui centru este peste tot si a carei circumferinta nu se afla nicaieri"/ "Dieu est un cercle, dont le centre est partout et la circonférence nulle-part." /" The nature of God is a circle, the center of which is everywhere, and the circumference nowhere" (Empedocle)

Poetii, misticii si indragostitii trec dincolo de "a privi" si ajung "sa vada"

William Blake scria: " sa vezi universul intr-un graunte de nisip"/To see a World in a Grain of Sand"/"Voir un Monde dans un grain de sable"

Principiul holografic afirma ca in fiecare parte se regaseste intregul si centrul omniprezent al universului.

Holographic principle states that in each part is found the whole and the all-present center of the universe.

"Intr-un univers holografic a-L cunoaste pe Dumnezeu inseamna a te cunoaste pe tine insuti" /

"In a holographic universe to know God is to know yourself "

Tu si Eu suntem in esenta una, dar aceasta experienta este posibila doar in starea de trezire, de iluminare, de functionare divina(holografica), in cursul extazului din transa mistica(samadhi) sau al adevaratei iubiri.

You and I are essentially one, but this experience is possible only in a state of awakening, of enlightenment, during the divine(holographic) functioning in the mystical trance(samadhi) or in true love.

## **The four Great Statements(Mahavakyas) /Cele patru mari ziceri (Mahavakyas)**

Fiecare din cele patru declaratii (Mahavakyas) reflecta functionarea divina sau holografica si este asociata cu una dintre cele patru Vede si in mistica Vedantica se spune ca aceasta singura propozitie condenseaza esenta acelei intregi Veda: pentru a indica unitatea finala a Sinelui individual (Atman) cu Sinele Universal (Dumnezeu, Brahman)

Each of the four statements(Mahavakyas) is associated with one of the four Vedas and in Vedantic mysticism is said to condense the essence of that entire Veda in one sentence: to indicate the ultimate unity of the individual Self(Atman) with the Universal Self (God, Brahman)/

### **Cele patru mari ziceri sunt:/The Mahavakyas are:**

**Prajnanam Brahma** - "Consciousness is Brahman/Constiinta (constienta, prezenta) inseamna Indumnezeire " (Aitareya Upanishad 3.3 of the Rig Veda)

**Ayam Atma Brahma** - "This Self (Atman) is Brahman/Sinele individual (Atman) este identic cu Sinele universului (Brahman)" (Mandukya Upanishad 1.2 of the Atharva Veda)

**Tat Tvam Asmi** - "Thou art That/Tu esti Acela" (Chandogya Upanishad 6.8.7 of the Sama Veda)

**Aham Brahman asmi** - "I am Brahman/Eu sunt Brahman" (Brhadaranyaka Upanishad 1.4.10 of the Yajur Veda)

Jesus said the same thing: "**I am One with God the Father**" "I and My Father are One"(John 10:23;10:30)

Iisus a spus ceva similar: "**Eu si Tatal meu una suntem**"(Ioan 10:23,10:30)
